Web Development
Certificate
2019

COURSE

Fort Hays State University
Programming with Python
- Final Project
2024

PROJECT

Mickey Herring Taxidermy
React.js Website
2024

EDUCATION

Fort Hays State University

Bachelors of Science | Information Networking and Telecommunications

Excited to be completing my Bachelor's Degree in Information Networking and Telecommunications with a focus on Web and Mobile Application Development in December 2025. My rigorous program has equipped me with expertise in designing, developing, and deploying web and mobile applications. I have gained hands-on experience with modern programming languages, frameworks, and tools, and have honed my skills in problem-solving and creating scalable software solutions.

South College

Associate of Science | Information Technology

Program was designed to build knowledge and skills needed to critically plan, develop, implement, and manage information technology solutions in organizations to meet the needs of users, while understanding the importance of critical thinking, teamwork, and problem-solving.
